

## **Emo Oil Fuelcard**

### **Approved Supplier For The Diesel Rebate Scheme**

**Save Up To 7.5cpl Of Your Diesel Purchases  
With The Diesel Rebate Scheme And Emo Oil Fuel Cards.**

Under the new Diesel Rebate Scheme launched by Revenue on 1st July 2013 licensed road haulage or bus operators can now claim up to 7.5cpl on Diesel purchased on an approved Fuel Card.

#### **Why choose Emo?**

Emo Oil fuel cards are approved for the Diesel rebate scheme.

Our fuel card team will work closely with you in relation to your claims.

With over 121 Emo & Great Gas branded fuel card sites nationwide and partnership with over 888 filling stations, we are one of Ireland's fastest growing Irish owned Fuel Card companies.

#### **Who qualifies?**

The repayment may be made to licensed road haulage and bus operators.

To qualify for the repayment, road haulage operators in the State must hold either an international road haulage operator's licence or a national road haulage operator's licence, issued under the Road Traffic and Transport Act 2006. Road haulage operators established in another EU Member State must hold an equivalent licence recognised under EU law.

Bus operators established in the State must hold either an international road passenger operator's licence or a national road passenger operator's licence issued under the Road Traffic and Transport Act 2006. Bus operators established in another EU Member State must hold an equivalent licence recognised under EU law.

#### **Are there any purchasing requirements?**

Yes. Claims may only be made in respect of auto-diesel that is purchased in the State by the qualifying road transport operator, either in bulk or by means of a fuel card approved for that purpose by Revenue. The auto-diesel must be purchased, for use in the transport operators qualifying vehicles in the course of business transport activities.

#### **Which fuel cards providers qualify?**

A particular type of fuel card will be approved where the fuel card provider undertakes to provide the information required by Revenue, about purchases and customer information associated with their cards, and continues to satisfy that undertaking.

Before any claim is made in respect of auto-diesel purchased by means of a fuel card, that fuel card must be approved and included in the registration data of the qualifying road transport operator.

A list of approved suppliers can be found on the [Revenue website](#).

## Emo Oil Fuelcard Approved Supplier For The Diesel Rebate Scheme

### How can you register for the scheme?

Road transport operators must register with Revenue before any claim for repayment may be submitted. Registration will be online via the Revenue website (ROS), and road transport operators in the State will use their current ROS credentials. Road transport operators established in Other Member States will be able to register online on the revenue.ie website to attain a ROS account.

When registering, the road transport operator must enter the licence number and other details of all relevant road transport licences. Road Transport operators based in other Member States must also submit a scanned copy of a written testimony from the tax authority of that Member State that he or she is tax compliant in that Member State.

### How can you submit repayment claims?

Road transport operators who have registered for the scheme will be able to submit claims for repayment online via the Revenue website (ROS). Operators with a large fleet of vehicles may submit claims by uploading an off-line file. The repayment scheme will apply to auto-diesel purchased on or after 1 July 2013.

### What information do you need to supply when making a repayment claim?

The repayment claim must contain the identification details of the road transport operator, and the licence number of any relevant road transport operator licences. For each vehicle concerned the following will be required:

- Vehicle registration number
- Odometer readings at the beginning of the repayment period
- Odometer readings at the end of the repayment period
- The quantity of Diesel purchased via fuel card used in the individual vehicle
- The quantity of Diesel purchased via bulk supply and used in the individual vehicle

For auto-diesel purchased by means of a fuel card, the claim must include the fuel card number and the total volume of auto-diesel purchased for each fuel card.

For further information please visit the [Revenue website](#).
